

**PROFESSIONAL DEVELOPMENT OPPORTUNITY**

Southside Virginia Environmental Educator Training Workshop  
June 27, 2007  
Southside Community College, Keysville VA  
9:00 AM - 3:30 PM

***"Bringing the outdoors to classrooms near you!"*** A day of hands-on, fun, educational activities any educator can take back with them to share with different audiences....

The Virginia Association of Soil and Water Conservation Districts Education Committee and the Southside Soil and Water Conservation District will provide a training workshop for Teachers and Non-Formal Environmental Educators.

This FREE one day workshop is for those that provide environmental education programs to teachers, students or scouts. This workshop will focus on providing hands-on learning activities and resource materials to participants. *All activities are SOL Correlated.*

Sessions include:

- "Stream the Movie" (learn how to transition your classroom and students into a functional stream with this skit)
- Clean Virginia Waterways & The "Tools for Teachers" Curriculum
- Rain Barrel Demonstration and other Water Conservation Projects
- Training in the New PLT "Places We Live" Module
- Your Ecological Footprint & The Virginia Naturally Program
- Litter Activities by the Brunswick Litter Control Council
- "Digging in the Soil" Lesson Plan Demonstration
- Demonstrations from Danville Science Center & Western Virginia Water Authority
- Make and Take Session
